Functional, dependable equipment, designed to meet your specific needs. Amtekco Industries is the leading manufacturer of custom stainless steel counters. Amtekco’s engineering staff and food service experience allows us to help you simplify your equipment needs.

Our focus as a company is to integrate food safety with the function and design of quality equipment for preparation, processing, and presentation operations in the supermarket industry.

Quality begins with the materials. Sixteen gauge 304 series stainless steel is our standard. Fourteen gauge 304 is available and often dictated by the overall width or length or general configuration of the equipment being designed/engineered. Amtekco equipment is fabricated to provide years of dependable service. This level of quality is found in our complete line of standard items and in our custom fabrication - both at competitive prices.

Custom Equipment Including the Following:

- Chef’s Counters
- Deli Lines
- Prep Counters

Stainless Steel Work Counter

Stainless Steel Countertop and Trayslide

If you can imagine it, we can build it!
If you can imagine it, we can build it!
